

## MORE RANGERS JEMEZ RESERVE

**Supervisor Kneipp  
Tells of Proposed  
Improvements.**

## SMALL TREE NURSERIES

**To Be Started to Replace  
Forests—Ranges in Fine  
Condition.**

"Everything is in splendid condition. Rains have been abundant and the grass is looking fine. The cattle ranges are in excellent condition and the sheep ranges are better now than they have been for years."

Such is the gratifying information that is brought back by Supervisor Leon F. Kneipp, who returned yesterday afternoon from an inspection tour of the Jemez Forest Reserve. Mr. Kneipp was interviewed this morning by a New Mexican reporter at his office in the federal building. Continuing he said:

"One feature of my trip which was a source of great satisfaction was explaining to the residents the new law which permits location on agricultural lands inside the government forest reserves under the homestead act. Everywhere I went there was great rejoicing among the people settled on the Jemez reserve. I explained the rules and regulations of the law so often that I found myself talking about it in my sleep. The titles to these claims were heretofore rather shaky but the settlers will not have any difficulty in proving up on their homesteads under the new law now that the tracts have been surveyed."

## Increase Force of Rangers.

Mr. Kneipp stated that the force of rangers will be increased on the Jemez Reserve. At present there are nine rangers employed there, but henceforth fourteen will be allowed in the summer time and ten during the winter months. Four vacancies remained to be filled to bring the ranger force up to the full quota of fourteen, and these additional rangers will be put on as soon as good men can be secured for the positions. The ranger force on the Pecos Reserve, which is also under the supervision of Mr. Kneipp, will still remain at four.

## Small Nurseries of Forest Trees.

Small forest nurseries are to be established at the headquarters of each ranger on the forest reserves, according to instructions recently issued by the forestry bureau. It is understood that these nurseries are to be established for the purpose of securing a supply of trees to take the place of the matured and fire killed timber. The forest nurseries will be started as rapidly as possible, where suitable ground is available and seedlings can be planted to advantage. Each nursery will be under the care of the local ranger. The nurseries need not be more than a few rods in extent but must be on fertile, workable soil, which can be irrigated if necessary. Mr. Kneipp has been ordered to communicate with his rangers and ascertain the number of available sites in the two reserves under his jurisdiction.

## To Take Better Care of Reserves.

A strong effort is also being made to improve the standard of the technical management of the forest reserves. Protection of the forests against fires is the first and most pressing need, but it is intended that active measures to improve the condition and character of the existing forests on the reserves shall be enforced where lumbering is done. Improvement in the composition of the forest will be secured by so managing as to increase the proportion and yield of the better kinds of timber. Areas now barren will be planted as rapidly as possible, particularly on draining basins which furnish water for irrigation and domestic use. Species not growing naturally in a region but which may be raised with success and profit, will eventually be introduced artificially.

Intensive methods of forest management to be increasingly successful must be based upon accurate knowledge of the silvical characteristics and requirements of native forest trees and of local conditions of soil and climate in relation to their forest growth. Such knowledge is acquired only gradually and with the utmost care. In order to secure such knowledge it has been decided by the forestry service to start at once a careful study of the needs and life habits of the most important forest trees covering the points suggested.

Bids were advertised to be opened in Washington today for the sale of four million feet of matured timber in the Jemez reserve in the vicinity of Bland. This timber will be available for a number of commercial purposes, but principally as railroad ties and telegraph or telephone poles.

## THIRD OF DEAF MUTE BROTHERS IS DROWNED.

Martinez, Cal., July 26.—Henry Islet the son of John Islet, a wealthy rancher at Martinez, was drowned while bathing in the river at Knighton. This is the third son of John Islet who has been drowned near here. All the sons were deaf mutes, and when in danger while bathing had no means of attracting attention of those who might have saved them.

## BRYAN VISITS KING EDWARD

At Latter's Request—Interview Was Informal—Members Inter-Parliamentary Union Received.

London, July 26.—William J. Bryan, who was introduced by Ambassador Reid, was received in private audience by King Edward at Buckingham Palace today. The visit was paid at the King's special request. The interview was quite informal and was marked by pleasing cordiality which the King is accustomed to show Americans in whom he is interested. Only the King, Mr. Reid and Mr. Bryan were present. The conversation largely turned on the subject of peace and the conference of the Inter-Parliamentary Union with the objects of which the King showed himself thoroughly in accord. Subsequently the King received some eighty members of the Inter-Parliamentary Union in the throne room.

## TERRIFIC CLOUD- BURST IN FRANCE

Caused Large Loss of Property—Reported Deaths is Later Denied.

Turine, July 26.—A terrible cloud-burst in the region of Mount Cenis today caused a great loss of life and property yesterday. Almost the entire village of Fourneaux at French End was destroyed. Twenty-two houses were demolished, fifteen persons killed and sixty wounded in that vicinity. The damage is estimated at a million dollars.

## Missing People Turned Up Safe.

Modane, France, July 26.—The report that fifteen persons were killed as a result of a cloudburst yesterday in Mont Cenis district is incorrect. Some persons were missing but all have been found and it is definitely established that there was no loss of life.

## MANY DEATHS ON RAILROADS

1,921 Collisions, 1,569 Derailments, Cost 1,126 Lives and 17,170 People Hurt in 3 Months.

Washington, July 26.—The Accident Bulletin, which has just been issued by the Interstate Commerce Commission for the three months ending March 31, 1906, shows the total number of casualties to passengers on railroads and employees to be 18,296 (1,126 killed and 17,170 injured.) This is an increase of seventeen in the number killed and fifty-two in the number injured over those reported in the preceding three months.

The total number of collisions and derailments was 3,490 (1,921 collisions and 1,569 derailments), of which 289 collisions and 167 derailments affected passenger trains. The damage to cars, engines and roadway by these accidents amounts to \$2,924,785. There is also a decrease of 232 in the number of collisions and derailments over those reported in the preceding three months.

## \$3,000 FOR REPAIRS PRESBYTERIAN CHURCH

This Amount Also Includes Expenditure of \$1,400 for New Pipe Organ.

Rev. George F. Sevier, of the First Presbyterian Church announces that the bill for improvements on the church and parsonage property will amount to over \$3,000. The biggest item of expense will be for the pipe organ which cost about \$1,400. An addition to the rear of the church had to be built to accommodate the organ, and the ground floor of this is used as the Sunday school room. Bricks for sidewalks along the church property and leading to the front door of the manse are on the ground and the pavements will be laid as soon as the bricklayers can get around to the work. During the fall it is proposed to have a furnace installed in the basement of the church and this will add somewhat to the expenses. The Christian Endeavor Society of the church is figuring on raising money enough to purchase an ornamental fence to replace the present unsightly one.

## WAS MAJOR DREYFUS INSULTED?

By Brother Officer After Being Honored By President—Report Officially Denied.

Paris, July 26.—Just after being honored by President Fallieres at Elysee Palace, yesterday, Major Dreyfus was publicly insulted in the Cercle Militaire, one of the most exclusive clubs of Paris, by an unknown commandant who struck him in the face. Instantly there was almost a riot. It appears that the incident was prearranged. The officer who attacked Dreyfus is said to have declared that he would refuse to fight a duel in order to bring opprobrium on Dreyfus and force him to retire from active service.

## Official Denial of Assault Story.

Paris, July 26.—An official denial was issued today of the report that Major Dreyfus was assaulted yesterday by a brother officer at the Military club. According to the official statement, no unpleasant incident occurred.

Largest and best equipped Blindery in the Southwest.

## THAW'S LIFE ON WOMAN'S CHOICE

**Wife Must Choose  
Either Husband  
or Mother.**

## A STARTLING ADMISSION

**Made by Mrs. Holman Who  
Tells that White Sup-  
ported Her.**

New York, July 26.—The Thaw defense is anything but worried over the publication of the Mrs. Nesbit-Holman letters. An official statement to that effect was made by Clifford Hartridge chief counsel for Harry Kendall Thaw. "The letters speak for themselves," said Mr. Hartridge, "they are certainly not damaging to the defense. It is absurd to print that Thaw was depressed after reading the letters."

It is known, moreover, that the Thaw defense regards the letters as only another link in the chain that is expected to prove that Mrs. Nesbit-Holman sought to persuade Evelyn Nesbit-Thaw to leave her husband and return to Stanford White.

The publication of the letters of Mrs. Nesbit-Holman to Stanford White puts the beautiful actress wife of Harry Kendall Thaw in a difficult position. She must choose, finally and forever between her mother, who is an implacable enemy of the young millionaire, and her husband, a prisoner in the Tombs. On her choice, and on the testimony she may be called on to give when the case comes to trial, the life of the young Pittsburgher may rest.

## Admitted That White Supported Her.

Mrs. Nesbit-Holman has admitted that she had been practically supported by Stanford White, and it is known that she entertained a bitter animosity against Thaw because in his winning of Evelyn Nesbit from Stanford White he had cut off the money that was being supplied Mrs. Nesbit-Holman by Stanford White.

The publication of the letters, however, brought former Chief of Police Roger O'Mara hurriedly from Pittsburgh. The importance of his visit to this city was proven when Evelyn Nesbit-Thaw drove to the Twenty-third Street police station in her electric hansom and took him immediately to the Tombs, where they were met by Mr. Hartridge. A long conference ensued and Mrs. Thaw and the detective went to Hartridge's office with the lawyer for another conference.

O'Mara admitted having seen Mrs. Nesbit-Holman in Pittsburgh since the publication of the letters Sunday but declined to state what had transpired at their interview.

## APPEAL TO RE- PUBLICAN VOTERS

Chairman Sherman's Call to Aid Congressional Campaign Committee

The New Mexican takes pleasure in publishing the following call from the Republican Congressional Campaign Committee and urges all good Republicans to comply with the request of the committee. This year's congressional campaign is of great moment to the country and it is important for the people and the Republican party that a majority of Republican congressmen should be elected. Any and all aid given the committee will be fully appreciated by its members and will redound to the benefit of the country and of the Republican party. The notice reads:

To Republicans: "We are anxious to have every Republican in close touch, and working in harmony with the Republican National Congressional Committee in favor of the election of a Republican Congress."

"The Congressional campaign must be based on the administrative and legislative record of the party, and that being so, Theodore Roosevelt's personality must be a central thought in the campaign."

"We desire to maintain the work of this campaign with popular subscriptions of One Dollar each from Republicans. To each subscriber we will send the Republican National Campaign Text Book and all documents issued by the Committee."

"Help us achieve a great victory. JAMES S. SHERMAN, Chairman, P. O. Box 2063, New York."

## NAVY NEEDS 3,000 MEN.

To Fill Vacancies Caused By Deaths Expired Enlistments, and to Man New Ships.

Washington, July 26.—The Navy Department finds itself short by about three thousand enlisted men of the needs of the navy, caused by the building of new ships, discharges, deaths and other causes. The department proposes to make an effort to have a big reserve force on hand as early as possible and to this end instructions have been sent to the recruiting officers to stir themselves and get all the good men that are obtainable.

## SENA CASE DISMISSED.

United States Judge Phillips Takes This Action on Appeal Says Dispatch.

A dispatch on the date of July 24, in the St. Louis Globe-Democrat says that on a technicality of law Mariano SENA of Santa Fe will not serve four years at hard labor in the penitentiary at Santa Fe for the alleged forgery of receipts, purporting to have been given by Arthur J. Tinker to Pedro Sanchez, supervisor of census, as an interpreter. An opinion in the case was handed down by Judge Phillips in the United States court of appeals.

Sena was convicted in four courts and sentenced to one year and a day in each. The supreme court of the Territory of New Mexico admitted that a statute under which the right to have the judgment of the district court reviewed on appeal by the supreme court of the Territory was repealed, without a saving clause, that the authority of the appellate court to review the case was taken away, and it was left without jurisdiction over the subject matter. The supreme court, however, affirmed the sentence of the lower court, when, in Judge Phillips opinion, it could only dismiss the case.

This case was heard before Judge Phillips in the United States court of appeals for the eighth circuit at St. Paul, Minnesota, several months ago. Assistant U. S. Attorney E. L. Medler, of Albuquerque, represented the United States. The action and decision of the trial court, over which Judge McFie presided, was never reviewed by the territorial supreme court. This latter court dismissed the case on the ground that the appeal had never been perfected and then added an order affirming the judgment of the lower court. Judge Phillips evidently held that if there was no jurisdiction in the territorial supreme court, even the case by virtue of the appeal not having been perfected, the court had no power to affirm the decision of the lower court. That is, the territorial supreme court has absolutely no jurisdiction in the case to enter any order, except that of dismissal. Until the text of the decision in the case reaches here, it cannot be definitely stated what the order of the court of appeal is and what the result will be, but according to the report as taken from the St. Louis Globe-Democrat's dispatch, the dismissal by Judge Phillips virtually closes the matter and the defendant will not have to serve the sentence imposed upon him by the trial court in the First Judicial District in Santa Fe.

## ALLEGED SLAYER IN ROSWELL JAIL

Juan Hernandez Accused of Shooting Democio Rubio Two Years Ago Under Arrest.

News comes from Roswell that Juan Hernandez, the man accused of shooting to death Democio Rubio on the plains twelve miles southwest of Roswell on February 1, 1904, is now in the Chaves County jail. He was arrested several days ago in Abilene, Texas, on a charge of horse-stealing and was recognized by the officers there as the man wanted for man-slaughter in New Mexico. They notified Sheriff Woodruff, who had the more serious charge. Sheriff Woodruff came in Sunday with the prisoner, bringing him handcuffed as he was said to be a desperate character. He will be given a hearing as soon as the lawyers can arrange for the trial.

The killing of the Rubio boy is well remembered by Roswell people. He was found several days after he was shot, the body in a decayed condition. He was the son of Juan Rubio, a well known horse owner. Hernandez was accused of the crime for various reasons, one of which was that the boy was an important witness against him in a case that was up for trial about that time, and another reason was that Hernandez disappeared after the killing. When arrested at Abilene, Hernandez was going under the name of Juan Guterrez. His wife was with him. He did not admit that he was Juan Hernandez until within ten miles of Carlsbad and he told Sheriff Woodruff that he was the man accused. He knew there were many men in Roswell who would recognize him anyway.

When seen at the jail by a Record reporter yesterday morning, Juan was reticent about the crime with which he is charged. He denied that he was guilty. His wife is still at Abilene.

## WHO WILL GET SAGE'S MONEY

Report That Dead Financier Left His Millions to His Wife Denied By Her Nephew.

New York, July 26.—The published report that Russell Sage bequeathed all of his estate to his widow was denied today by Major Herbert Stocum Mrs. Sage's nephew.

## MAYOR JOHNSON OF CLEVELAND IN COURT.

Cleveland, Ohio, July 26.—Mayor Thomas L. Johnson, charged with contempt for disregarding the injunction to restrain him from tearing up certain street railway tracks, appeared before Judge Ford today. The court, however, decided to postpone the whole matter until July 31st.

The Santa Fe Daily New Mexican is headquarters for all kinds of blanks.

## NEW GOVERNMENT FOR RUSSIA

**Being Discussed by  
Labor Leaders  
and Politicians**

## FINANCIAL DISTRESS FEARED

**By Emperor—Treasury Ex-  
hausted Bolstering Up  
Markets.**

St. Petersburg, July 26.—The government is using every means to create the impression both at home and abroad, that the crisis has been successfully passed. Official reports seem to create the impression that there has been little response among the masses to a plan for a general strike, as a preliminary to a general uprising. The government claims to have the most dangerous revolutionary leaders behind the bars. The future is dependent on the government's ability to continue its foreign loan operations and the disastrous fall of Russian securities has created consternation in government circles. As a matter of fact, the government can hardly be blind to the evidence that it is living over a volcano and that danger of an eruption is far from ended. The committees on labor and political organizations are conferring not only on the question of calling a general strike but actually on the question of setting up a provisional government. No final decision has yet been taken.

## Desperately Holding Prices Up.

St. Petersburg, July 26.—The efforts of the government bankers succeeded in keeping prices moving upward on the Bourse today. The government issues at one time were two points higher. Six of the elected members of the council of the Empire, (the upper house parliament) have resigned.

## SURVEY OF JEMEZ FOREST RESERVE

Delegate Andrews Receives Information of Speedy Commencement.

The director of the Geological Survey has informed Delegate Andrews that important survey work will be commenced soon on the Jemez Forest Reserve in Rio Arriba and that the level line will be run from Tucson, Arizona, to Deming in this Territory. The letter shows that Delegate Andrews has taken much interest to secure these surveys and reads:

"Hon. W. H. Andrews, House of Representatives.  
"Sir—In view of your interest in the continuation of topographic and forest surveys in your Territory, I take pleasure in advising you that in plans approved by the Honorable, the Secretary of the Interior, provision has been made for the topographic mapping, together with the extension of horizontal and vertical control, of the entire Jemez Forest Reserve, also for the carrying of a level line from Tucson, to Deming, New Mexico.  
"It is hoped to complete the larger portion of this work with the present appropriation and to continue same next year, provided the future appropriations will permit.  
"Respectfully,  
"CHARLES WALCUT,  
"Director Geological Survey."

## A HANGING EXPERIENCE

Tramp Thief at Epris Suspended in Mid-Air by Companions.

A lynching bee which would probably have had a fatal ending but for the timely intervention of some of the railroad men and townpeople occurred last Sunday at Epris, a station on the Eastern Railway of New Mexico. A gang of tramps struck the town and proceeded to get drunk. One of the hoboes robbed two of his comrades of \$40 and a gold watch. The others when they discovered who the thief was conceived the idea of hanging him, and strung him up to the eaves of a large warehouse. When cut down the victim was unconscious and would likely have been strangled to death had he been suspended any longer with his heels kicking in the air. The would-be lynchers beat a hasty retreat and the tramp they attempted to hang also disappeared as soon as he was resuscitated.

## JAPANESE TO VISIT VENICE

Cousin of Mikado and Admiral Togo Also Convey National Sympathy For Stricken Frisco.

Venice, July 26.—Commissioner Y. Kushibiki, who has charge of the Japanese exhibition in Venice, has made the announcement that Prince Kannon, a first cousin of the Mikado, will shortly visit Venice. The prince is going to California as the personal representative of the Mikado to convey to Governor Pardee and President Roosevelt the sympathy of his nation for San Francisco in her great disaster. Prince Kannon is now on his way across the Pacific. Commissioner Kushibiki also says that Admiral Togo is to visit the Jamestown Exposition and after that will go to Venice.

## TREES ON SCHOOL GROUND DEAD

Who is Responsible—Sale or Lease of Kindergarten School Building.

A special meeting of the board of education was held at 3 o'clock yesterday afternoon in the office of Judge N. B. Laughlin. Mayor Thomas B. Catron presided. Those present were: Judge Laughlin, Charles F. Easley, Jose Segura, Jose D. Sena, Jose Sanchez, J. L. Seligman. Professor J. A. Wood, the superintendent of city schools, and A. C. Ireland were the only absentees.

The meeting was called primarily for the purpose of deciding what disposition should be made of the kindergarten building, whether to rent it or offer it for sale, and to fix the price in either case. Mrs. P. B. Campbell of Durango, Colorado, attended the meeting and made a proposition to rent it with the privilege of buying later on. She stated that she was thinking seriously of establishing a steam laundry here and upon investigation found that the kindergarten building could be utilized for such a plant. Mrs. Campbell said she preferred to rent the building first and then if the business came up to expectations she would probably purchase it. Whatever action the board of education takes in the matter will be done today. The proposition was sent to the committee on buildings and grounds with power to act and it was thought that a mutually satisfactory price for rental with privilege of buying could be reached this afternoon.

The establishing of street liens for houses on school property and watering the trees on the school premises came up for informal discussion. These two matters were discussed at some length at a previous meeting and members wanted to know what was being done about them. It was stated that nearly half of the young trees which were planted had died and the question was raised as to whether they had been watered sufficiently.

Mr. Easley acted as temporary secretary in the absence of Professor Wood. The board then adjourned.

## NO REDSKINS FOUND

Reports of Wholesale Cattle Stealing By Indians Not Substantiated.

In regard to the reported wholesale killing of cattle by outlaw Indians, recently in western Socorro and Grant Counties, Captain Fred Fornoff of the New Mexico Mounted Police has received a report from First Sergeant Robert W. Lewis telling of the latter's efforts to apprehend the red-skinned rustlers. Sergeant Lewis spent fifteen days in trying to round up the alleged cattle thieves but was forced to abandon the search after following an old trail without encountering substantial Indians.

While the first sergeant of the mounted police was at Alma a man rode into the town and informed the officer that he had seen sixteen Indians, who had from thirty to forty horses with them, and were skinning a beef when he saw them. He stated that the redskins were camped near the trail running from Dry Creek to Mule Springs, six or seven miles from Meadows Ranch. At the request of the first sergeant he agreed to guide the officer to the spot, and they set out for the place early the next morning, but could not find any of Indians. There were no signs of a camp at the spot indicated nor tracks of any kind.

An Indian trail several days old was found the next day, and the officer started to follow it in company with several other men, among them B. P. Harbour, who has a ranch on Dry Creek. Mr. Harbour told the officer that one of his neighbors had been robbed of nearly everything he had of value, and laid the thefts to outlaw Indians. After following the trail for some time they discovered the embers of a camp fire and a small quantity of roasted mescal. They followed the trail to Sacaton Peak and thence to the breaks of West Mogollon Creek. At the latter place they found a camp which from all indications had been used at least ten years, and there was about a ton of beef bones around the camping grounds. The trail led from there to Lookout Mountain. After going six miles farther south they gave up the search and returned to Alma.

## FIELD ESTATE HEAVILY ASSESSED

Total Assessed Valuation is 180 Million Dollars—Amount Taxes Due \$2,500,000.

Chicago, July 26.—The Board of Review yesterday decided that the estate of Marshall Field shall be assessed this year at \$180,000,000. The executors will be compelled to pay to the county \$2,500,000, which is more than the total amount of personal property on which Field was taxed during the last years of his life. The greater part of the sum to be paid is to come from a collection of back taxes.

## YOUNG INDIANS RETURN FROM BEET FIELDS.

Seventy young Indians from the local training school who have been working in the Rocky Ford sugar beet fields for the past two months, have returned home. They were satisfied with the result of their work and brought considerable ready cash with them. A large number of boys from the Pueblos west of Albuquerque, have come home.

## SOLDIERS TO MEXICAN BORDER

**Twenty-Fifth In-  
fantry Abandons  
Nebraska Fort.**

## DEPARTMENT MAKES DENIAL

**That Troops Are Sent in  
Case of Outbreak in  
Sister Republic.**

Washington, July 26.—As the result of the abandonment of Fort Niobrara, Nebraska, the 25th Infantry has been ordered to posts along the Rio Grande in Texas. This regiment will participate in the joint maneuvers of the militia and regular army at Austin, Texas, before taking its new stations. Maneuvers at Austin will begin tomorrow and after their completion the Infantry will be distributed as follows: Stations of the Companies of Regiment.

Fort Bliss, headquarters of band and Companies E, F, G and H; Fort Brown, Companies B, C and D; Fort McIntosh Companies I, K, L and M. The War Department officials deny that the movement of infantry to the Mexico border was influenced by the recent riots at Cananea and the rumors of an anti-foreign movement in Mexico.

## Negro Soldiers Reach Texas.

Fort Worth, Texas, July 26.—A thousand negro regulars from Nebraska, arrived here today en route to the encampment at Austin. The movement of such a large body of soldiers to the south, in connection with the disturbances feared in Mexico, has caused considerable comment here.

## GOLDEN MINING DIS- TRICT TO THE FRONT

Large Mill to Be Put up by Frank Owen of This City in Golden Mining District.

Edgar L. Street of New York City, general manager of the Santa Fe Water and Light Company who was here from the east last week on a tour of inspection, accompanied Manager Frank Owen of the same company to the mining district of Golden and spent a few days there. To a representative of the New Mexican Mr. Street stated that he was more than pleased with what he saw there. He predicted rapid growth and development for the mining district.

"Upon our arrival at Golden," said Mr. Owen, "I took Mr. Street to a number of the mines in that district. He secured samples and made investigations which convinced him that there was plenty of paying ore in sight.  
"On the property in which I am interested, we personally put 214 tons of average ore, taken from a number of leased claims through the little stamp mill which is being operated there. From this amount of ore, we secured over 27 ounces of gold valued at about \$5.50 per ounce.  
"Mr. Street's enthusiasm reacted upon me to the extent that I secured controlling interests in three other claims of free milling ore. I found that others appreciate the future in store for that district as all claims which have been allowed to lapse because of lack of assessment work and non-compliance with the law, have been taken up."

"Colonel J. A. Wood manager of the Gold Bullion Company, is doing a large amount of work on the property of that company and has begun active mining and milling. Other mines are being worked on a smaller basis.  
"The little mill in which I am interested, is running night and day and the ore being handled is paying very well. I have about made arrangements for a mill capable of handling twenty tons of ore every twenty-four hours and expect to install it soon.  
"There is no doubt in my mind and in the mind of Mr. Street that the Golden Mining District will be one of the foremost in New Mexico within the next few years."

## NEPHEW OF PRINCE BISMARCK DEAD

In Missouri—Once Lieutenant Governor of That State—Eighty Years Old.

St. Louis, Mo., July 26.—H. C. Brokmeyer, former Lieutenant Governor of Missouri and for a time acting Governor, died today aged eighty years. He was a nephew of the "Iron Chancellor," Prince Bismarck, on his mother's side.

## NOMINATIONS FOR JUDICIAL PLACES

In Missouri—John Kennish For Long Term—J. T. Neville For a Shorter One.

Jefferson, City, Mo., July 26.—The Republican State Judicial Convention today nominated John Kennish, assistant attorney general, for the long term of ten years and Judge James T. Neville of Springfield for a short term of two years on the supreme bench.

The New Mexican Blindery is turn-New Mexican Review and get the by sending in a number of orders.
